MyChart - Visit Summary

Name: Jacob E de France | DOB: 12/18/2015 | MRN: 60005042098 | PCP: Shaina J. Rogers, DO

Progress Notes

Shaina Rogers at 06/03/22 1420

PATIENT NAME: Jacob E de France

DOB: 12/18/2015:

AGE: 6 y.o.

ENCOUNTER DATE: 6/3/2022

Shaina J. Rogers, DO

(406) 327-7337 (Office)

(406) 327-7373 (fax)

CURRENT ASSESSMENT AND PLAN

Follow-up exam

Jacob is clinically doing well. I do not see any evidence of serious injury or concerns at this time

- Growth parameters tracking
- He is due for his second Hepatitis A vaccine. Parents consent to this today
- Exam is reassuring
- Next well visit at 7 years of age
- Plan discussed with his parents, who expressed understanding and agreement
- Told to call the clinic with questions or concerns

Murmur, cardiac

Reviewed cardiology note from 5/11/22, which states that Jacob has a structurally and functionally normal heart

- His murmur is an innocent one, most consistent with a Still's murmur
- He requires no restrictions or medications from a cardiac perspective
- SBE prophylaxis is not indicated
- Follow-up with cardiology is not necessary unless there are additional concerns in the future
- Will clinically follow

1. Follow-up exam

2. Need for vaccination

- Hepatitis A vaccine pediatric / adolescent 2 dose IM [90633]

3. Murmur, cardiac

FOLLOWUP

Return if symptoms worsen or fail to improve.

MyChart - Visit Summary

MEDICATION ADJUSTMENTS**New Prescriptions**

No medications on file

There are no discontinued medications.

NEW ORDERS**Orders Placed This Encounter****Procedures**

- Hepatitis A vaccine pediatric / adolescent 2 dose IM [90633]

HISTORY OF PRESENT ILLNESS:

6 y.o. male presents with parents for evaluation following CPS inquiry. CPS came to the school yesterday and interviewed both Jacob and his brother Thomas. CPS also reportedly called the boys' father to inform him that they got a report from the school that both the boys had serious injuries. Parents are not certain where this report came from. Parents were surprised by this, as they have not seen any serious injuries and they do not have any concerns about Jacob's health. Jacob's parents' lawyer advised them to come here and be evaluated to show that he is clinically doing well.

Jacob has generally been healthy. He is acting normally. He has not reported to parents any bullying or anyone hurting him. He eats well, including fruits and vegetables. He drinks milk. No issues with voiding or stooling. No fever or current illness. No other concerns or complaints

REVIEW OF MEDICAL HISTORY:

Patient's medications, allergies, past medical, surgical, social and family histories were reviewed and updated as appropriate.

REVIEW OF SYSTEMS:**Review of Systems**

Constitutional: Negative for fever.

HENT: Negative for congestion and rhinorrhea.
